Minor troubles with the election machines were experienced throughout the day, chiefly fin the morning. These were ascribed not to mechanical failures of the machines, but to the failure of voters to operate them properly. In one instance, an election official neglected to set the machine for counting, causing a temporary delay.

WOMAN VOTE HEAVY

The women's vote, although not definitely computed, was said to be the largest in history locally. This was ascribed as the reason for an extraordinary heavy early vote as the housewives had to snatch time off housewives had to snatch time off between baby feedings, bridge-teas and a simmering stew or two.

Incidentally, the women were accredited with more efficiency and speed at the voting machines than the men, as they had studied the workings of the machines and mere man relied upon his heralded mechanical intuition.

Cleanse the blood, bowels and liver with Dr. Edwards's Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them.

Dr. Edwards's Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with a "dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad-disposition or pimply face.

Olive Tablets are a purely vegetable compound mixed with olive oil; know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints and Olive Tablets are the immensely effective result. Take nightly for a week. See how much better you feel and look. 15c, 30c, 60c.—[Advertisement.

Sooner or later this Collseum schedule question is going to become a real problem. The Southern California Trojans, quite naturally, have the first call on the big bowl because they were the first ones to use they were the first ones to determine the first one following. Then there's going to be a scramble. The annual occidental-Pomona game, the oldest game in the history of Southern California football, should by all fights be an annual fixture there. Something for Zack Farmer to worry about.

Our idea of the irony of fate is what is happen'ng to Cap Seth Strelinger, the local hoxing commissioner. For something like two or three years Cap Strelinger has argued with his fellow-commissioners that Dick Donald was a well-meaning young fellow, but that he was not financially responsible and should not be given a promoter's license. His fellow-commissioners, violating their own ruling that each commissioner shall be supreme in his own territory, overruled Cap and gave Donald a license. Then when the very thing happened that Strelinger said would happen, his fellow-commissioner's walk out and let Can hold the sack. Such is pollitics.

(Continued from First Page) assured U.S.C. of victory by a score of 67½ to 63½.

The germ of a good idea on the New Year's Day situation comes from Harry Skepner of Beverly Hills. He suggests that the hottest thing in the way of competition he can think of is a Rose Bowl game between Stanford and U.S.C.

ford and U.S.C.

Innsmuch as Stanford is more than likely to go through the season undeefated, and U.S.C. has a great chance to do the same thing in the Coast Conference, Skepner believes a battle to decide the famous 13-13 the would be worth all the East-West struggles in the book. I think he's right. But try and have the game staged. That's the point.

The Trojan special, which is to leave this city of ours for Chicago the 22nd inst., will only carry about 125 persons, in-cluding members of the team, coaches, trainers, managers, loy-

coaches, trainers, managers, loyal rooters and a few newspaper men. But it will carry the good wishes of 'lousands and thousands of folks who would give a right arm to make the trip and see the Trojans in action against Notre Dame at Soldier Field.

The Trojan special will be a section by itself of the Golden State Limited, and Henry Monohan assures me that nothing is to be left undone to make that trip across the country pleasant for the boys who will carry the colors of the West at Chicago. Howard Jones, who eats according to his own schedule and not that of the diners, may even have a special feed car of his own so he can order up at his heart's content. Henry Monohan said so, and Henry is always right.

CREATES SENSATION

If the President had any idea of continuing as the leader of the Republican party he would not have invited them to breakfast at the White House. What he told Senator Pess about embarrassing him by continued remarks of drafting him for President in 1928 is nothing to the sensation that the presence of these three musketeers of the Republican party from Illinois presented to the politicians of Washington. Whether the President realized that this interpretation of the breakfast party would clarify his position in the approaching party fight cannot be forecast at this time, but it was the biggest political news of a day when elections were being held in New York Kentucky and Detroit and San Francisco. All the election-day news was eclipsed by the apparent abandon of President Coolidge's well-known care in the selection of his breakfast guests and is another proof that he will not be drafted in 1928.

CHICAGO, Nov. 8. (P)—When William Lerimer, former United States Senstor, and Mayor William Hale Thompson of Chicago had breakfast at the White House with President coolidge today, Mayor Thompson saw fulfillment of a political prediction made seventeen years ago.

On September 8, 1910, Theodore Roosevelt, then about to enter on his third-term campaign, was invited here to address the Hamilton Club. Premier Baldwin an-nounced that the women's bill will not be introduced until after Christ-

a sitting which will last until Christmas and which will be occupied with measures almost entirely of local interest, such as unemployment, insurance, Defense of the Reaim Act and similar subjects. The only measure of interest abroad will be the remaining 'stages' of the films' bill.

The House adopted a government resolution giving government business precedence for the remainder of the seasion by a vote of 269 to 128, thus excluding any extraneous legislation, but the Prime Minister promised to find time, if possible, for debates requested by the opposition leaders on disarmament, the foreign policy, including Tangier, and Great Britain's failure to ratify the Washington eight hours convention.

CHICAGO, Nov. 8. (Exclusive)—
Twice within the last two weeks surgeons in Chicago hospitals have employed hypnotiam instead of anesthetic while performing delicate operations. In each case the need of surgery was immediate but the particular of the needed of the unemployed.

During a recent medical convention a professional hypnotist was called to put a woman in a transce while a surgeon performed a highly technical major operation, requiring much time and skill. This was witnessed by many visiting surgeons and was entirely successful.

HYPNOTIST CALLED

Today a surgeon, operating on a woman patient for an aggravated herais, employed hypnotic suggestion as the soic anesthetic. An East and the poperation would be a suncorreality large, black eyes upon her, he commanded her to sleep. She closed her eyes at once, relaxed at his order and passed into profound slumber.

"You are insensible to pain." he murmured in her ear. "You will red for Newport and were accompanied at his order and passed into profound slumber.

nouncec today after a consultation.

The former Interior Secretary, confined to bed with congestion of the lungs since last Friday, has "markedly recovered," they said. It is deemed advisable for him to return to a warmer climate as soon as possible. VILLAGES IN SWEDEN GOTHENBURG, Nov. 8. (#)—The Swedish Lake Vanern, the second largest take in Europe, has risen to a higher level than in 120 years. Tremendous rains and swollen rivers emptying in the lake have made it inundate the cities of Karlstad and Kristinehamm, and are now threatening other towns and villages along the shores.

Warmer climate as soon as possible.

henry Ford's museum of Dearboun.

Colquhoun, injured in an automobile accident three years ago, died last Monday. Known as the "night police commissiones," he had a host of friends among those who frequented the City Hall and its vicinity. He had seen many of his boarders climb to fame and wealth in the city's phenomenal industrial rise.

Several months ago an ordinance was passed removing lunch wagons from the streets. It was at that time that Ford arranged to purchase John's familiar establishment on wheels. Sentiment played no small part in the deal, for when l'ord was an unknown angineer working for the Detroit Edison Company, thirty years ago, he fragently ate at this wagon and with a pencil sketched upon the counter the "horspless carriage" he was then working on.

Colquhoun stwanced Ford a few hundred dollars to help him in his experiments, and later beiped finance the inventor's first crude automobile.

DETROIT, Nov. 8. (Exclusive)— Still later, when auto racing was all John M. Colquboun, Detroit's "hot the rage, Colquboun was the adviser dog king," is dead, but a unique monument to him and his business early racers.

Coupon Certificates in denominations of \$1000 and \$500. Registerable as to principal only. Repurchasable by the Company as a whole but not in part on any interest date at par, accrued interest and a premium of 1/2 of 1% for each unexpired six months or portion thereof, but not exceeding 102.

METROPOLITAN TRUST COMPANY OF CALIFORNIA, TRUSTEE

Exempt from California Personal Property Tax Legal Investment for California Savings Banks, Trust Companies and Insurance Companies Eligible for Deposit with State Treasurer to Secure Faithful Performance of Trusts

Company: The Mortgage Insurance Corporation is incorporated under the laws of the State of California and operates under the provisions of the California Mortgage Insurance Act, which authorizes the issuance of these Insured First Mortgage Certificates. The Corporation has a capital and surplus of \$1,302,969.48. Operations are under the close supervision of the State Insurance Commissioner.

Certificates: These certificates represent a participating interest in 129 first mortgages and first deeds of trust, totaling over \$500,000, and averaging less than \$4000, which are deposited with the Trustee. These liens are secured by improved and productive California real estate appraised at \$1,056,815, or more than twice the amount of these securities. Under the Mortgage Insurance Act, all appraisals are made by appraisers approved by both the Superintendent of Banks and the Insurance Commissioner of California.

Amortization: Principal and interest requirements on these certificates are met through payment to the Trustee of principal and interest on the deposited liens, which are largely in monthly installments. In event any of the deposited liens are paid off before maturity, the Corporation must immediately deposit other first deeds of trust having a similar or greater amount of unpaid principal and bearing the same or higher rates of interest.

Mortgage Insurance: Every deposited first mortgage and first deed of trust is accompanied by a policy of Mortgage Insurance insuring the payment of principal and interest thereon. In addition, the Corporation, in the trust agreement, guarantees that sufficient moneys will be paid to the Trustee to meet both principal and interest requirements on the Certificates as due. Adequate fire insurance policies covering all mortgaged property are deposited with and assigned to the Trustee. Title insurance is in the form of an owner's, mortgagee's or beneficiary's policy and gives complete protection.

Management: The affairs of the Corporation are under the able management of the following officers and directors, who have had many years' experience in real estate construction, insurance and banking: James Long Wright, President; Chas. B. Hopper, Executive Vice-President; H. R. Thompson, Vice-President and General Manager; T. W. Hendrick, Vice-President; Carl F. Burrell, Treasurer; G. T. Sturtevant, Secretary; H. H. Sinking Fund to Retire at Least 55% of Issue Before Maturity

For further information we refer to a letter of Mr. George S. Wright, President, which states that

Company Omaha & Council Bluffs Railway and Bridge Company, incorporated in 1887 under the laws of Iowa, owns a toll bridge across the Missouri River between Omaha, Nebraska, and Council alone and a 37% loan against the bridge alone and a 37% loan against the value of the entire laws of Iowa, owns a toll bridge across the Missouri River between Omaha, Nebraska, and Council Bluffs, Iowa, and the street railway system in Council Bluffs, all of which property is leased to the Omaha & Council Bluffs Street Railway Company. The bridge is the only one between the two cities available for all public traffic. Its location is especially strategic for it connects the business sections of the two cities by the shortest possible route. shortest possible route.

Security These bonds will be secured by a first closed mortgage on all of the fixed properties, rights, privileges and franchises of the Omaha & Council Bluffs Railway and Bridge Company now owned or hereafter acquired; interest and sinking fund payments will be made directly by the Railway Company, as lessee of the properties, to The New York Trust Company, Trustee of this issue.

Lease Properties of the Omaha & Council Bluffs Railway and Bridge Company are leased to the Omaha & Council Bluffs Street Railway Company for a period extending beyond the maturity of these bonds at a net rental equal to \$60,000 in excess of annual interest charges on all bonds of the Bridge Company at the time outstanding. The lessee company, in addition, pays all operating and main-

tenance expenses, taxes and other charges.

Valuation Properties of the Company have been appraised at a net sound value of over \$5,482,477. The bridge alone, exclusive of the street railway lines, has been appraised under the direction of Ralph Modjeski, Esq.. New York City, as of September 9,

Earnings Earnings of the bridge property alone, which do not include any receipts or tolls from street car traffic, for the five years ended Dec. 31, 1926, as certified to by Messrs. Haskins & Sells, Certified Public Accountants, follow:

# **Analyzing Your** Particular Needs

You can make your investments based on a hypothetical case that may or may not fit your particular

The much more sensible and satisfactory method is not to buy your investments based on the needs of some other mythical investor, but to purchase only after a careful study of your own problems has been made.

No one can know those problems as well as yourself, but you can secure the counsel and advice of men well qualified by training and experience to suggest investments suited to your specialized needs accurately.

You may have the benefit and counsel of a nationwide organization in the satisfactory solving of your particular problems without incurring any obligation whatever.

As a first step you will find a new booklet just off the press, "Investing for Safety", a compendium of investment information that ought to prove valuable to you. Simply call, phone or write for

REDDING. Nov. 8. (P)—Deputy Fish and Game Commissioner Greene thinks they should make government employees wear red stripes or other distinguishing marks.

While scouting about yesterday for violators of the fish and game laws he found eight men seining Battle Creek. This was luck, he thought.

"You're all under arrest. How do you get that way, hauling fish out by the wagonload?" Greene shouted in his most menacing tones.

"Oh, it's all right, cap," said one of the men. "We're catching fish for the United States hatchery downstream, where the eggs are to be recovered. Our seining is perfectly lawful."

Then the eight men grinned, showed their credentials, shook hands with the dejected Greene and watched him stroll away.

BUCAREST (Rumania) Nov. 8. (P)
La decisión del rey Boris de Bulgaria, quien ha estado viajando por
Europa, de volver a su país por
Rumania en lugar de Jugoeslavia, ha
dado ocasión a numerosos comentarios en la prensa rumana, que deciara que el acto del rey puede tener
por causa el que haya temido que

que es posible que el rey Boris haya
pensado que era peligroso atravesar
por Jugoeslavia a causa de que ésta debe estar contrariada con Bulgaria por las recientes incursiones depredatorias cometidas por "Commitadjis" macedonios en la frontera
de ambos países. El rey temia también no estar seguro en territorio rumano, puesto que rechaso el tomar
un tren especial ofrecido por el gobierno, escoglendo en vez de ésto un
compartimiento en un tren de segunda clase, donde no pudiera ser observado fáctimente.

LISBOA, Nov. 8. (P)—La costa portuguesa fue azotada, por violento temporal ayer por la noche y todo el día de hoy. Hubo varios accidentes a lo largo de la costa y en la desembocadura de los grandes rios, que van a dar al mar. Hasta abora no se sabe de ninguna pérdida de vidas. Algunos botes se hundieron en el río Tajo, mientras que otros barcos tuvieron que desembarazarse de su carga. Toda la noche se escucharon las sirenas de alarma y el almirantazgo envió auxilios a los barcos en peligro.

La hermosa estatua de Lafayette, regalada al colegio por Mirros Clothier, de Filadelfia, fue encontrada l'ena de pintura bilanca y café. Al ple de la estatua rezaban unos numeros: "ocho más cero igual a ocho," referencia hecha, según parece, a las ocho victorias últimas de football de Lafayette sobre Lehigh. El busto de la estatua estaba pintado de color café y en el pecho había una gran "L" en blanco. Los colores de Lehigh son esos: café y blanco.

# IT'S THE CAST NOSE OF SUMMER

And Mr. Wolheim's Cartilaginous Olfactory Protuberance Has to Stay That Way Fall, Winter and Spring, Let Beauty Languish as It May, Judge Rules

For the time being, at least, the Wolheim nose is to be preserved the way Providence molded it.

the way Providence moided it, for the benefit of the picture-viewing public.

Superior Judge Gates arranged this yesterday when, in the suit of United Artists et al vs. Louis Wolhelm, he granted an injunction forbidding Wolhelm from submitting himself to the surgical attentions of Dr. William E. Balsinger pending such time as the court can go exhaustively into all of the tangled equities involved in the status of his beak.

Before the court, by counsel, came the United Artists, Feature Productions, Inc., John W. Considine and Howard Hughes, all of them agitated over reports that yolhelm had contracted with Dr. Balsinger to have his nose frimmed An order authorizing trustees of A. C. Wagy & Co., former Julian Petroleum Corporation brokerage firm, to employ auditors to go over the company's books, to sell the lease on the company's quarters on South Spring street, its seat on the Los Angeles Stock Exchange and all office fixtures, was signed yesterday by Federal Judge McCormick.

At the same time the scheduled than when taken over by Wagy & meeting of creditors yesterday was postponed until January 31 when a hearing on all claims against the company will be held before referee in bankruptcy James L. Irwin.

William T. Craig, attorney for the trustees, said yesterday the fixtures in the company's quarters originally cost \$40,000. The stock exchange seat is valued at \$20,000. No value was placed on the lease, but because of the rapidly growing financial assemblage on Spring street it is expected to be of greater value now the school of the loss Angeles Board of Trade.

Coday's Bible Cert Brethren beloved: Behold, how good and how pleasant it is for brethren to dwell together in unity! Psalm exxxiii, 1. if permitted, would cause them irreparable and incalculable damage, for the reason that Wolheim
is engaged in playing a "hardboiled characterization" in a picture now under production and
that any alteration of his facial
contours would ruin the film.

Purthermore, the plaintiffs contended, Wolheim is under future
contract with Hughes and a Wolheim with a standard nose would
be practically a dead loss. His
nose has made him what he is today, the comp....at recites: "The
ugliest man on the stage."

Wolheim's protest that a man's
nose is particularly personal to
himself and sub'ect to his own
discretion were of no avail against
this argument. Judge Gates held
that he had pi bably sold his nose
in advance, jut as it was, and that
he would have to deliver it that
way.

The operation, which had been. if permitted, would cause them ir-

he would have to describe way.

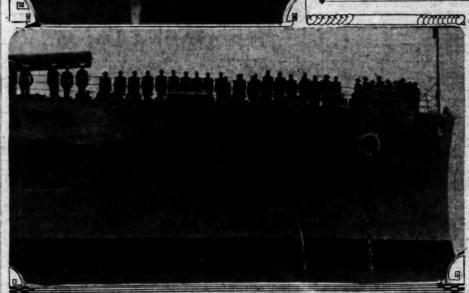

The operation, which had been scheduled to take place ten day ago, temporarily was restrained by an order issued by Judge Burnell, so that the nose came to court yesterday unaltered.

PAY FOR CHILDREN

The downfall of the Labor government is directly attributable, Mr. Milham says, to the chaotic conditions brought about by its unreasonable and dictatorial demands. Two of the burdens placed on employers by the trade unionists recently are a minimum wage law under which no one can be paid less than \$30 as week and an endowment fund for children, he added This law, he explained, requires all employers to contribute to a national fund certain sums weekly, which are distributed to workmen having children. LINEMAN CONTACTS HIGH-VOLTAGE WIRE

The Traffic Commission yesterday informed the City Council that no restriction of downtown parking of vehicles on the streets is necessary this year during the holiday season. Last year's experience showed, the commission said, that the present restrictions—loading zones, traffic signals, etc.—are sufficient to keep traffic moving during the holiday season. Severely burned when he came in contact with a wire carrying 15,000 volts while working on the Eiysian Park tower at 2400 Riverside Boulevard, A. C. Kleckner, 29 years of age, lineman for the Southern California Edison Company, was taken to the Hill-street Receiving Hospital in a serious condition yesterday. Kleckner was saved from a fall by his safety belt, and was given first aid by the Fire Department rescue squad No. 1. son.

A prohibition of parking, the commission said, seriously would handicap the merchants in the busiest season of the year. The commission asked that should the Council contemplate holiday parking legislation, a public hearing be held before action is taken.

DROPPING OF "SLUMP" SOB ADVOCATED

Elimination of the word "siump" from the English language as a partial solution of America's business problem was advocated last night by Harry H. Culver, founder and builder of Culver City, upon his return from a trip throughout the East, where he visited twelve of the largest cities. Business men, he said, fall under the spell of the word when they hear it used by others, and, through a natural course of mental suggestion, it becomes a dangerous and harmful belief. One trouble with business men of the country today, he said, is that they pead a large of the said, is that they pead a large of the said, is

siump into which their business has fallen.

"I have observed on this trip that at present there is a little less activity in some lines than there has been in the past, but the dangerous part of the whole thing is that business men have stopped to mourn over it instead of going out and digging a bit harder to move their stock or increase their sales.

"The word 'slump' is used altogether too much for the good of the country. It would be better all around if some one crossed it out of the language, because, after repeated use, it becomes fixed in the average mind, and through the power of suggestion raises a barrier hard to beat down."

competition on "Why the Laundry Should Do My Washing" you will need the full facts about the better type of laundry service.

You will need to understand why clothes sent to a good laundry come back cleaner and more sanitary. You will need to know why they last longer and why the cost is actually less.

Women of Los Angeles are fortunate in having Troy Laundry to study in preparing for this great \$50,000 competition. For Troy is recognized as one of America's foremost laundries. . . . . .

Recognized not only by technical laundry men all over the country as a leader, but recognized, since 1889, by the discriminating women of Los Angeles. . . . Recognized for its quality, safety, fairness and progressiveness in such an outstanding fashion that everywhere you go you hear the slogan, "Troy Laundry the Best." Many of Troy's customers have been sending their family washing to this laundry for more than 20 years.

> Send your bundle this week to Troy. Telephone now for a representative. Tell him to bring the little booklet "Ask Me Another About the Laundry" which gives all the details of the great letter-writing contest. Have him tell you of Troy's scientific methods-how Troy can launder your clothes more safely even than you can do in your own home. Arrange to visit the Troy plant—to get the "feel" of this great, clean, airy, wholesome laundry.

#### FRIEDMAN RETURNS TO TRIUMPH

Master-Pianist Holds Large Audience in Spell Created by His Music-Magic

BY ISABEL MORSE JONES Ignaz Friedman, master-planist ess silence while he played a long rogram of the great works at the hilharmonic Auditorium last night It was his second appearance in Los ers were keenly anticipating the

Possessor of an incredible technique, of fingers that glide over difficult runs as if he were calling into sentient being waterfalls of sparkling sounds, and of a mentality that enables him to toss off the profundities of a Beetheven C-minor sonata or the twenty-four variations of Brahms on a religious theme by Handel, as if they were the musical companions of every-day, Friedman is a pianist of enormous power and ranks among the topmost artists. He is decidedly an intellectual type of performer with an astonishing physical equipment for his task. A large head set squarely upon a short and stocky body, with muscles of steel and an almost awkward heaviness which makes for compactness which makes for compactness. tation, are also written indeibly upon the mind after hearing him play. He is a virtuoso's traits. Of course he amused himself with superfluous runs and pirouettes before the beginning of his numbers and occasionally added a few measures for good measure at the end, but if one has incredibly beautiful strings of pearls and flashing diamonds galore in a treasure chest, a little showing-off can be easily forgiven and even enjoyed. The Friedman Beethoven as expressed in the C minor constate the end of the changed from thunderous mountains of sound to the velvety tenderness of sound to the velvety tenderness of soft whisperings made this splendid performance which grew in worth as the work progressed. The opening was disappointingly clumsy and there were moments in this and in the marvelous variations by Brahms which made one wonder if Friedman were 'osing his former high regard for clean technique.

He kept pace with the amazing imagination of Brahms and the twenty-four variations were casily the highlights of the entire program. A Gluck-Brahms Gavotte done with charming simplicity followed the Beethoven for an encore and the famous Mendelssohn Scherzo at an exceedingly rapid tempo was played after the enthusiastic applause for the Brahms.

Chopin's better-known gens such

the Brahms.
Chopin's better-known gems such as the Berceuse, the C sharp minor waltz, the B flat Polonaise and five studies, the last one of which was added with the Minute Waltz for extras, formed the third group. They were all performed with a definers, a light and airy dismissal of difficulties that left the audience astonished and delighted. True, the selected tempos did not always make clarity possible and the waltzes, although in strict three-four time did not always have the flair of a dame, but the effect was unforgettable.

A closing group included "Soiree dans Grenade," by Debussy, rhythmically alluring, a Vienness dance by Priedman in an exalted and very interesting Biraussian manner, the loveliness of the Schubert-Liszt "Hark, Hark, the Lark," a spectacular arrangement of Wagner's "Magic Fire" and "Voices of Spring." by Strauss-Friedman.

"I speak on behalf of these home owners," said Mr. Wright, "who are trying to protect their homes and to beautify their street. The owners of the trucks and automobiles which use this section of Highland avenue do not pay these home owners taxes. The automobile riders who pass through this part of Highland avenue do not live there.

"We are told the parkways in the center of the street will slow down traffic on Highland avenue. That is why the home owners there want this parkway—to beautify their street and protect their homes against this traffic."

Opposing the parkway plan were carl Bush, secretary of the Hollywood Chamber of Commerce, and C. E. Toberman, and the City Park Department had a letter before the commission opposing the plan. The opponents of the parking of Highland avenue said that the street is being widened north of Meirose to the mountains, that it is a traffic artery and that parkways would clog the movement of traffic.

The committee took the matter under advisement.

# 5 Big Jactories Cutting Styles and Satisfaction

Ours is not an ordinary "economy-program." We have originated and built an entirely new system of doing business,—a system so radically different, our expenses of doing business Upstairs have shrunk beyond all reasonable comparison with generally existing conditions

#### We've Cut and Slashed **Government Figures**

Research by the U.S. government sets down 30% as fair overhead expense for conduct of a men's clothing factory. Foreman & Clark overhead at our 5 magnificent daylight factories is 6%. Average overhead for store-keeping in our line is government-established at more than twice F&C actual expenses.
